

Cork and Cellar

(Wine Team Building)

by i Entertainment

Food and meal preparations are one of the cornerstones that everyone resonates with. There is something familiar and inviting about a kitchen that just makes everyone feel a little more comfortable. We want people feeling comfortable with our food programs because these are some of the most enjoyable programs we offer. There are other foods and drink that work well with food programs. Be sure to ask an i Entertainment Event Specialist how we can build our programs to fit your group's needs.

This is a low impact program designed to move at a slow and consistent pace so that guests can interact with each other in addition to the stationed activities provided. That way, the guests do not feel rushed. We want each of your guests thanking you for a memorable experience and you thanking us for making it so simple and turn key.

Smelling. Pairing. Tasting. Tannins. Each is an important part of enjoying wine but also in our Cork & Cellar Wine Team Building Program. Teams will experience different stations that accentuate each aspect of enjoying wine. This program has been designed for a 'C' Level corporate experience.

Physical Impact: Low

Program Guest Minimum:
6 Guests

Team Size Recommendation:
3 to 4 Guests Per Team

Room Size:
10' x 10' Foot Print Per Team

Each aspect of this program is designed to highlight each aspect of wine. So small, executive teams will rotate between stations putting their smelling, pairing, and tasting to the test. At the end of this program, we want everyone to better understand the science of wine and maybe learn a thing or two to help you enjoy your wine more.
