

Cup Cake Wars

by i Entertainment

Food and meal preparations are one of the cornerstones that everyone resonates with. There is something familiar and inviting about a kitchen that just makes everyone feel a little more comfortable. We want people feeling comfortable with our food programs because these are some of the most enjoyable programs we offer. There are other foods and drink that work well with food programs. Be sure to ask an i Entertainment Event Specialist how we can build our programs to fit your group's needs.

You can be a Cup Cake Boss or you can be a Cake Boss. Either way, you are a boss and you and your team will embrace that boss-ness to create the most unique decoration competition offered by any team building company. Roll up your sleeves and get ready for war! Arm yourself with fondant and frosting and get ready for the tastiest combat of your life!

Basically your team can choose to decorate cup cakes or a cake. In this sugary combat teams will be given themes. The goal of any decoration is to make that theme come to life on your canvas. The canvas in this case, happens to be made of eggs, flour, and happiness. In addition to the creative challenges with decorating with frosting and fondant, there are a

series of challenge stations that make building your creations a little more challenging.

This is a program that is all about creativity. It's that creativity we want to see because it's that creativity that creates a memorable experience for each of your guests. We want each of your guests thanking you for a memorable experience and you thanking us for making it so simple and turn key.

Physical Impact: Medium

Program Guest Minimum:
20 Guests
