

# Sweet Success

(Ice Cream Team Building)

by i Entertainment

Food and meal preparations are one of the cornerstones that everyone resonates with. There is something familiar and inviting about a kitchen that just makes everyone feel a little more comfortable. We want people feeling comfortable with our food programs because these are some of the most enjoyable programs we offer. There are other foods and drink that work well with food programs. Be sure to ask an i Entertainment Event Specialist how we can build our programs to fit your groups needs.

One of our sweetest programs guaranteed to excite your co-workers involves ice cream. Using cutting edge gastronomic chemical science, your team will learn how to make custom flavored ice cream. There are presentation and design challenges that adds sprinkles of flavor for any group to enjoy.

Your team will have a few unique steps as they work on making ice cream. But the real fun is in customizing this challenge. You can make ice cream, but what about a waffle cone? What about custom designer toppings? We also have presentation elements to this program that allow teams to put together commercials, jingles, or presentations around their creations.

This is a sweet and sticky fast paced program. And it's fast-paced because... ice cream melts. So it's the fun of the program combined with the quick timing that leaves everyone with a good taste in their mouth. We want each of your guests thanking you for a memorable experience and you thanking us for making it so simple and turn key.

**Physical Impact:** Medium

**Program Guest Minimum:**  
20 Guests

**Team Size Recommendation:**  
3 to 4 Guests Per Team

**Room Size:**  
10' x 10' Foot Print Per Team
